Re: School Committee Quarterly Report

Enrollment:

This quarter the program attracted new students seeking their high school diploma. The day and evening Academic Labs will help them prep for 5 HiSET tests to meet this goal. The teachers are available 6 to 9 hours a week to meet the needs of students with variable work hours, smaller classes and individualized learning plans. They have access to curriculum both online and through textbooks.

Student Success:

The ELL - English Language Learner class sizes are growing, expanding the diversity of levels of instruction needed. Ms. Stone, our ELL teacher has increased her skills through the NNTESOL organization. Pictured below, she is recognizing Svitlana's English acquisition that led to new employment in the senior care industry.

Three nights a week Enrichment Classes invite the community to discover and develop new skills. The pasta making class pictured below is a creative hand to table experience that is taught by Ms. Davis.

Looking Forward:

Kittery Adult and Community Education Advisory Team meeting, April 1st, 6PM

Kittery Graduation and Celebration of Adult Learning, at Traip Academy, June 3rd, 7 p.m.
