

Adult Education
October 2020 Quarterly Report
Linda Greer, Director

This summer our Adult Education students were able to test and finish classes to earn their high school diploma. James Moulton and Jeremy Richter represented the 2020 class of five at the graduation ceremony on August 17th. This fall we offer academic and enrichment classes in person, virtual and hybrid models. These options are meeting the needs of most students. Shipyard and Water Treatment career workshops were held to support training, certifications and employment have been well attended. Participants are coming to work on employment applications, computer, math and science skills.
