

Kittery School Nutrition Program Quarterly Report

TO: Eric Waddell, Superintendent
FROM: Wendy Collins, School Nutrition Director
Date: 04/2021
RE: School Committee Quarterly Report

- ❖ The School Nutrition Staff work hard packing meals to go to the classroom and on the van for home deliveries. I can't say enough good things about what they've done since last March when the pandemic started.
- ❖ Three River Farm Alliance has been donating over \$200 worth of produce weekly to the Kittery School and our families. This amazing partnership was made possible through our continued relationship with Chef/Parent David Vargas.
- ❖ Weekend meal kits are sent home to remote learners containing directions for families to have fun creating healthy meals together.
- ❖ We received a grant from Full Plates Full Potential for \$4,000 and part of the funding was earmarked for connecting remote learners to school. Aimee Sutherland and Kate Sheldon helped with ideas Aimee, her boys and the Shapleigh kitchen staff created craft kits to send home with lunches. (see pictures below)
