### Annual Notification Integrated Pest Management Policy 2020-21 School Year

TO: Parents, Guardians, Employees  
FROM: Eric Waddell, Superintendent of Schools  
DATE: September 1, 2020

The regulation regarding the use of pesticides in all school buildings, school-owned playing fields and grounds has been adopted by the State of Maine Board of Pesticides Control.

An Integrated Pest Management Policy (policy ECB) has been adopted by the Kittery School District. This policy sets standards for pest management. Pesticide use will comply with all state regulations. In the event that pesticides must be used, this will be done only by a state licensed applicator. It is the intent of the Kittery School District to limit the use of any pesticides.

If pesticides must be applied, parents, guardians, and staff will receive prior notification by email, which will be given at least two days before the planned application. Notices will also be posted in schools and on school owned property. Notification will not be given for pesticide applications that are approved by the state as posing little or no risk of exposure to children, staff or public.

The Kittery School District will maintain records at Central Office of all pesticide applications and information about the pesticides that may be used. You may review these records as well as copy of the pesticides in School Regulation (CMR 01-026 Chapter 27) by contacting our Facilities Director, Mark Everett at 439-7018.

Policy ECB is on our district website at: [www.kitteryschools.com](http://www.kitteryschools.com)
