- ❖ Traip Academy: Breakfast 14% Lunch 54%

Free/Reduced Report

- ❖ Mitchell School: 26%
- ❖ Shapleigh School: 27%
- ❖ Traip Academy: 24%

*Ms. Shanleigh is a college student that will graduate in May with a Public Health degree. She worked with the Menu Math students and helped with menu development of the new recipes the students chose. She will continue working with our program to learn the scope of Child Nutrition in schools.

*Mitchell School blended up Smoothies as students happily waited in line to watch their fruit, yogurt and milk turn into a delicious drink. Principal Durost was joined by Officer Durgin and Officer Cummer at the blenders. Shapleigh School hosted families with Omelets to order. Chef David was joined by Superintendent Waddell, Principal Ellis and VP Beach flipping eggs and fresh veggies. Traip Academy held a Baggo competition where students could take a turn throwing a bean bag to win a whole grain cinnamon bun. The games were run by Principal Drisko, VP Roberge and Superintendent Waddell.

*Menu Math- Students from Mr. Bennington's 5th grade class worked with Ms. Shanleigh, College intern, and Mrs. Collins to create a menu week using the USDA guidelines. There were 5 students involved and they will help make and serve the menu recipe they created during the week of April 23rd.

*Mitchell students now have a second chance to have a healthy start to their day. Manager Jackie worked with the leadership team and participation has increased by almost 5%.
