

School Nutrition Program

Wendy Collins, Director

What challenges did you and your department need to overcome when we entered a remote learning deployment?

The challenge was revamping our business model basically overnight and then the constant changes with the USDA waivers. The School Nutrition staff successfully worked through the challenges and made it a seamless process for the community.

Looking forward and recognizing that 'business as usual' may not be upon us in the fall, how will you adjust in order for your department to meet the needs of our students?

The School Nutrition Staff will adjust to any model the Leadership Team presents to us. I have been attending Zoom meetings and listening to webinars regarding various options that could happen. We will put the best possible plan into place once we know what the fall opening will look like at our schools.
